

Transform your school into a community

When school leaders empower teachers to create stronger bonds with their students, they build the foundation that leads to positive outcomes for students and their school communities.

Along is a free, online teacher-student connection builder that helps quickly build the strong ties needed to create and maintain trust year-round. With a foundation of strong classroom relationships, students are more engaged, feel like they belong, and experience positive effects related to academic growth, well-being, and social development.

Designed alongside students and educators, teachers get to know who their students really are so they can immediately apply this knowledge to create an inclusive learning environment, increase classroom engagement, and positively impact school culture. A campus mission and vision grounded in authentic teacher-student relationships can correlate to higher student attendance, decreases in behavior referrals, and a means for ongoing connection points with harder-to-reach students.

“We have to meet the needs of all students, but how you really truly do that can’t be left to chance. Along is a tool to get it started. And from there, the sky’s the limit.”

—**Alyta Harrell**, Associate Superintendent for Campus Development, Pasadena Independent School District (PISD)

Designed with our partners for inclusivity and a teacher-student perspective

Along in the news:

Find out how Along can help strengthen connections and build a positive culture at your school.
